2. **Cultivating a Mission-Driven Culture:** Emphasize integrating social and environmental missions at the core of banking operations, ensuring these values drive the institutions beyond mere financial returns.
3. **Expansion of Purpose-Driven Entities:** Highlight the necessity for concerted efforts to scale up and mainstream purpose-driven financial institutions like credit unions and ethical banks to serve broader societal and environmental needs effectively.
4. **Systemic Regulatory Adjustments:** Advocate for creating bespoke regulatory environments that cater specifically to the diverse needs of purpose-driven banks, fostering a financial system where positive impact is prioritized over profit.
